PROFESSIONAL SUMMARY

Detail-oriented **Data Analyst** with hands-on experience in **data analysis, data cleaning, and business reporting**. Proficient in **SQL, Python, Power BI, Excel, PL/SQL, and Snowflake**, with experience analyzing customer and sales data to generate actionable insights. **Microsoft Certified Power BI Data Analyst (PL-300)** with a Master's degree in Computer Systems.

EXPERIENCE

Junior Data Analyst — Nov 2024 – Dec 2025

Ticketifly

Riga, Latvia

- Managed and analyzed customer and travel-agent datasets, performing data cleaning, validation, and transformation to maintain accurate and reliable data for business operations.
- Analyzed travel-agent sales data to evaluate sales performance, identify trends and patterns, and generate insights into agent and customer behavior to support business decision-making.
- Worked closely with customers, travel agents, and internal teams to gather data requirements, investigate data inconsistencies, and translate business needs into actionable data insights and reports.

Data Management Intern — Jan 2024 – Apr 2024

Accenture Baltics

Riga, Latvia(EU)

- Assisted with database design and data modeling, including table creation, schema normalization, and structuring data according to business requirements.
- Used SQL to analyze complex datasets through joins, subqueries, window functions, and aggregations to extract meaningful insights and support data-driven decisions.
- Collaborated with cross-functional teams to understand business requirements and support data-related tasks, using Oracle SQL Developer, Snowflake, and Jira for database management, data warehousing, and project tracking.

Projects

Customer Orders Data Analysis

- Analyzed Retail Order Data using **Python and SQL** to identify top revenue-generating products, regional sales patterns, and month-over-month sales performance.
- Cleaned and transformed raw data using **Python/Pandas**, then loaded the processed dataset into **SQL Server using SQLAlchemy** for further analysis.
- Developed SQL queries using aggregations, joins, ranking, and time-based analysis to answer key business questions and derive actionable sales insights.

Customer Performance Dashboard

- Developed an interactive Power BI dashboard to analyze customer sales performance, purchasing behavior, and key business metrics.
- Designed DAX measures and dynamic Top-N analysis to evaluate customer performance, revenue contribution, and identify high-value customers.
- Implemented interactive filtering and customer segmentation across country, age, gender, customer status, and purchasing behavior to support detailed business analysis and data-driven decision-making.

SKILLS

Skills: Python | SQL | PL/SQL | Power BI Desktop | Power BI Services | Excel | Snowflake | Tableau | Pandas | Numpy | Azure Data Factory | Azure Databricks | Data Modeling | Data Visualization | Pyspark | Apache Spark

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate (PL-300)
Microsoft Azure Data Fundamentals (DP-900)
Oracle Cloud Data Management Foundations Associate
HackerRank SQL Advanced Certification
Accenture Data Management and Visualization Certification
Databricks Lakehouse Fundamentals

EDUCATION

ISMA, University of Information Systems Management — **Riga, Latvia (EU)**
Master's in computer systems — *Feb 2023 – Jan 2025*

Riga Technical University — **Riga, Latvia (EU)**
Bachelor's in computer systems & information technology — *Sept 2019 – Jan 2023*
